Product description

The Einhell digital detector TC-MD 50 is an indispensable helper for DIY enthusiasts: in the home, at the building site or for renovation work - the digital detector is unbeatable for reliable localization in walls. The detector reliably locates metal, wood and electric leads in dry walling: It detects ferrous metals such as steel, for example, and live wires to a depth of 50 millimeters, and non-ferrous metals such as copper, for example, to a detection depth of 38 millimeters. Wood can also be detected to a depth of 19 millimeters. Operation is easy and intuitive thanks to an acoustic warning signal. Protector pads are also fitted on the back to protect the wall. The soft grip makes it comfortable to operate with just one hand. If the Einhell digital detector TC-MD 50 is set

down to one side, it switches off automatically after one minute without being used.

Exact detection of metal, wood and electric leads in dry walling

Intuitive operation thanks to an acoustic warning signal

Protector pad on the back for protecting the wall

Soft grip for comfortable one-hand operation

Switches off automatically after 1 minute of inactivity

1x 9V 6F22 battery needed (not included in delivery)

Technical data

Do you like to read the technical data sheet before choosing your product? You can find the most important facts and figures for Digital Detector TC-MD 50 here:

Battery size 6F22

Max. detection depth of copper 38 mm

Max. detection depth of current-carrying lines 50 mm

Max. detection depth of ferrous metals 50 mm

Max. detection depth of wood/metal 19 mm

Number of batteries included 0 Pcs

Product weight 0.13 Kg

Switch-off time 1 min

Voltage of battery 1.5 V
