Description: Hedge trimmer with telescopic handle for high hedges

High hedges protect privacy. But when they need to be trimmed, you'll soon wish privacy weren't such a priority, since that would make things a lot easier. Unless you use the GARDENA Battery Telescopic Hedge Trimmer THS 42/18V P4A. It can easily handle even three-metre-high hedges. Cutting on shaky ladders is a thing of the past, you can always stand safely on solid ground with both legs and you'll never have to worry about power cables.

Thanks to a LED indicator directly on the handle, you are always aware of the current charge level. This tool is compatible with all batteries from the 18V FOR ALL ALLIANCE. Depending on the battery used, the product can reach a battery run time of up to 240 minutes and cut up to 600 square metres of hedge.

The telescopic trimmer weighs 3.0 kilograms without battery; its handle is ergonomically designed and it has an ideal centre of gravity. This means that it fits comfortably and securely in your hand even when the telescopic handle is fully extended, allowing you to use the full three-metre range.

Do you need to trim the hedgetop? Not a problem: the head of the trimmer can be tilted – a function that is also very convenient when cutting ground cover. You no longer have to bend down and it's easy on your knees.

Branches and twigs of up to 16 millimetres in thickness will fall without much effort; the optimised blade geometry ensures that every cut is made efficiently and cleanly. Thanks to the 42-centimetre blade length, you'll quickly get your hedges into shape across their entire width.

If you want to transport or store your telescopic hedge trimmer, you can separate it into two parts, easily and without tools.

The GARDENA Battery Telescopic Hedge Trimmer THS 42/18V P4A solo is supplied without battery and charger. You can use any 18V battery from the
