Article description

With the Einhell cordless universal blower GE-UB 18/250 Li E-Solo there is order in the house and garden – and in every corner, thanks to wireless freedom. The cordless blower is a member of the Power X-Change family; 1x18 V battery is required for operation. The batteries of the system family can be used in over 200 Einhell devices, whether in the garden or workshop. The multi-part blowing pipe can be used for various applications in the home and garden, for example as a leaf blower with a long blowing pipe, as a workshop blower with a medium blowing pipe or as a grill ignition aid with a short precision blowing pipe. The electronic speed control ensures that the required adjustment is made. The LED display provides information about the set speed at a glance. The softgrip ensures good grip and fatigue-free working. The integrated wall mount allows for easy storage. For optimal results, a 2.5 Ah battery or higher is recommended. Delivery does not include a battery or charger, but these are available separately, for example as a practical starter kit from Einhell.

Technical details

- No-load speed (idle speed) 15000 min⁻¹
- Max. air volume 120 m³/h
- Blow velocity 250 km/h
